Barbara MacKay Vinson  
President, MacKay Foundation for Cancer Research  
7 Thimbleberry Square  
Greensboro, NC 27455

Dear Barbara:

I greatly appreciate the commitment of the MacKay Foundation to support leukemia research in the Section on Hematology and Oncology at Wake Forest University School of Medicine. Our Leukemia research will benefit greatly from the financial support provided by the MacKay Foundation. Our faculty members are at the cutting-edge of both laboratory and clinical research developments. The major use of these funds will be to help faculty members develop pilot data which will then help them compete for grants from the National Cancer Institute and other National Foundations.

There are a number of important research projects for leukemia, lymphoma and myeloma at this time. We are examining new drugs, new combinations of drugs and novel schedules.

On behalf of our faculty in the Section on Hematology and Oncology at Wake Forest University, I thank you for your support. We feel very fortunate to have the support of you and the MacKay Foundation.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Powell".

Bayard L. Powell, MD  
Professor and Section Head  
Internal Medicine - Hematology and Oncology  
Director, Leukemia Service
